

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

*Advertisement.*

*It was thought fit to publish here the following Advertisement of John Evelyn Esquire, and that, as himself proposed it. Viz.*

**B**Eing much solicited by many worthy Persons, to publish a *Second Edition* of my Discourse and Directions concerning *Timber, &c.* which was printed at the Command and by the Encouragement of the *R. Society*, I do humbly request, that if any Person have any Material Additions or Reformati<sup>o</sup>ns, which he thinks necessary either to the Part, which concerns the Improvement of *Forrest-Trees*, or that of *Cider*, he would be pleased to communicate his Notes and Directions to Mr. *H. Oldenburgh*, one of the Secretaries of the said Society, at his House in the *Palmal* of *St. James's Fields Westminster*, with what speed they conveniently can, before our *Lady-day* next, to be inserted into this intended *Edition*.

## NOTE,

*What was observed, Numb. 20. p. 364. l. 18. of the Number of Vegetables, (vid. That they are about 410.) found in England; and catalogued by Dr. Merret in his Pinax, &c. is to be understood only of the different Kinds of Plants, not of the several sorts of several Plants; for, these being comprised, the Number will amount to about 1400.*
